EXPLANATORY STATEMENT PURSUANT TO SECTION 173(2) OF THE COMPANIES ACT, 1956

Item No.6

Mr. R. K. Sharma was appointed as an Additional Director of the Company by the Board of Directors, with effect from 27th October, 2009, pursuant to the provisions of Article No. 103 of the Articles of Association of the Company and section 260 of the Companies Act, 1956. According to the provisions of the said Article and section 260 of the Companies Act, 1956, he will hold office upto the date of this Annual General Meeting. As required under section 257 of the said Act, notice has been received from a member along with a deposit of Rs.500 signifying his intention to propose Mr. R.K.Sharma as a candidate for the office of a Director.

Mr. R. K. Sharma, B.E.(Metallurgy), Hons. Graduate in Non Destructive Testing, Post graduate Diploma in Management & Marketing Management, has around 39 years experience of working in medium & large scale Engineering industries. He was in managerial capacity for 35 years in the field of Production, Planning, Quality assurance, Material procurement, Research & Development, Marketing of Steel,

Aluminium & Copper and its alloys, Rolled, Extruded, Deep Drawn, Forged, Fabricated & Machined Products. He has been vested with various foreign assignments during his job tenure with various Companies. His last assignment was as General Manager, Ordnance Factory Ambarnath, Dist. Thane. Considering his long experience, it is in the interest of the Company to continue to avail of his services as a member of the Board. The Directors therefore recommend for approval resolution contained in Item no.6 of the Notice convening the Annual General Meeting.

None of the Directors except Mr. R. K.Sharma is concerned or interested in item No.6 of the Notice.

Item No.7

Shri M P Jhunjhunwala was re-appointed as Chairman and Managing Director with effect from 21.08.2009 for a period of three years till 20.08.2012. The Board of Directors at their meeting held on 11th May, 2009 had approved a basic remuneration of Rs.3,50,000 per month apart from perquisites and amenities as contained in the Agreement dated 05.08.2009. The re-appointment along with the above remuneration package was approved by the Shareholders in the Annual General meeting of the company held on 31st July, 2009 after which an application was made for Central Government approval pursuant to the provisions of Part II of Schedule XIII of the Companies Act, 1956. The Central Government vide its letter dated 10.04.2010 approved a gross remuneration of Rs.36 lacs per annum only.

The Board after further deliberations on the above matter has (based on the recommendation of the Compensation Committee) proposed that considering the prevailing level of salaries for Senior Management Executives including the salary paid to Company's own Senior level employees and further considering the valuable contribution of Shri M P Jhunjhunwala for the growth of the Company, and his vast experience and expertise in running the business successfully, the remuneration payable to Shri Jhunjhunwala for the balance period from 01.04.2010 to 20.08.2012 be revised. The remuneration and perquisites payable to Shri Jhunjhunwala has been enumerated in the resolution at Item no.7 of this notice. The said remuneration and provisions are in consonance with the provisions of section 198,269,309,310 read with clause 1(c) of section II of Part II of Schedule XIII of Companies Act, 1956.

The Explanatory Statement together with the accompanying notice should be treated as an abstract of terms and conditions of the Agreement and memorandum of concern or interest under section 302 of the Companies Act, 1956.

Since Shri MP Jhunjhunwala has attained the age of 70 years, the approval of the shareholders for the variation in the terms of his appointment is sought by way of a special resolution under Schedule XIII of the Companies Act, 1956.

The details required in a Statement as per Clause 1(C) of Section II of Part II of Schedule XIII are as hereunder :

OTHER INFORMATION :

Reason of loss or inadequate profits. Steps taken or proposed to be taken for improvement. Expected increase in productivity and profits in measurable terms.

Due to losses incurred by the Company in past and consequent financial constraints, the Company could not make any significant capital investment for almost eleven years till 2008-09. In the meantime, the overheads had significantly increased resulting in lower and inadequate profits.

The Company has expanded its extrusions manufacturing capacity from 7500MT to 15000MT per annum. The commercial production from expanded capacity commenced from August 2009. With commencement of new press line, apart from getting better economies of scale, the Company is able to produce profiles of larger dimensions and more stringent tolerances. The new press line would provide opportunities to produce and supply larger product range to

our existing customers and also to cater to the consumer segments where we had been unable to supply due to our capacity limitations. The doubling of capacity should help in significant improvement in profitability of the Company.

DISCLOSURES

Remuneration package offered to Shri M P Jhunjhunwala, is as per the proposed resolution and draft supplementary agreement.

Other disclosure in terms of Clause (iv) IV (2) of paragraph 1-C of Section II of Part-II of Schedule XIII to the Companies Act, 1956 have been given in the Corporate Governance Report attached to the Board of Director's Report.

The Board recommends passing of the same.

None of the directors is concerned or interested in the resolution except for Mr. Vikram Jhunjhunwala, son of Shri M P Jhunjhunwala.

DIRECTOR'S REPORT AND MANAGEMENT DISCUSSION AND ANALYSIS

Dear Members,

We are pleased to present the 22nd Annual Report of the Company for the year 2009-10.

General Economic Recovery

The financial Year 2009-10 saw improvement in all sectors of Indian economy with the global economy also showing signs of gradual recovery from 2008-09 slowdown. In FY 2009-10, India pursued aggressive easing of monetary policy, together with significantly higher public spending to counter weak external demand. As a result, despite several vulnerabilities, economic activity has shown signs of improvement, particularly in industrial production, private business confidence, access to foreign capital and exports. As per the Economic Survey 2010, India's GDP has been estimated to have grown at 7.2% during F.Y. 2009-10.

Investment in infrastructure especially in deficit regions like Asia is growing at a phenomenal rate. Aluminium consumption in Asia will continue to grow in FY 2010-11 as stimulus measures in China, the world's biggest metals consumer, India, a fast growing large economy, and rest of the region lift demand for the metal. In India, mega and ultra-mega power projects are being set up with a vision to make the country self reliant in electricity. Large Construction projects have revived with renewed focus on heavy investment projects like mega housing projects, modernization of railways etc. where aluminum consumption is very high, and therefore, the aluminium industry will

continue on high growth path in coming years.

The growth of primary aluminium industry over the past 5 / 6 years period in Asia has been impressive with China being the major growth driver. The growth of the industry in India has been impressive though at a comparatively slower rate. This is set to change significantly in the next few years as the manufacturers in India have lined up aggressive growth plans. The primary Aluminium metal production in India is set to grow to 3-folds its present size in less than 3 years from now.

During the FY 2009-10, aluminium production in India increased by 12.99 percent (from 1.34 Million MT in 2008-09 to 1.52 Million MT during FY 2009-10) contributed by all the primary producers in India, namely Hindalco, Balco, Vedanta Aluminium and Nalco.

The **Aluminium Extrusions industry** has also recorded **double digit growth during 2009-10**, and expected to continue growing in double digits driven by demand growth, mainly from within India.

Financial Performance

The Company has performed reasonably well during the FY 2009-10. The Sales turnover at Rs.132.95 crores and PAT at Rs.5.35 crores show increase of 20% and 91% respectively. This growth is mainly attributable to higher volumes in Aluminum Extrusions resulting from capacity expansion and the recovery in aluminium metal prices.

Dividend

Considering the financial performance of the Company for the year and to appropriately reward the members while conserving resources to meet the future financial requirements, we are pleased to recommend a dividend of Re.0.10 per equity Share of Re.1/- each for the year ended 31st March, 2010. This dividend is subject to approval of the members at the forthcoming Annual General meeting.

Production

The Aluminium Extrusions production for the year was 8829MT in comparison to 6338MT in previous financial year showing a growth of 39%. The growth has mainly come from capacity expansion of 7500MT per annum. The expanded capacity commenced commercial production on 24th August 2009. With full production capacity being available for whole of the next financial year, the Company expects to achieve significantly higher production and sales during the FY 2010-11.

The Power Transmission and Distribution Line Hardware (T&D Hardware) achieved production of 48MT during the year as against 28MT during the previous year. This industry has a longer gestation period of roughly 3 years mainly because the prospective customers, mainly the State Power Distribution Companies require prior supply experience before they allow new vendors to participate in their Tenders.

General Business Profile, Strengths and Strategy Initiatives

The Company with an experience spanning a rich 18 years enjoys a number of first mover advantages comprising a comprehensive understanding of the aluminium and aluminium extrusions market, reputed brand and a strong customer base.

The Company possesses in-house facilities for die-manufacturing, melting and casting of billets and the extrusions manufacturing facility with three press lines. The Company's new state-of-the art 2700MT press line is automated to 90% and will cover the production of a large product range. The Company enjoys easy raw material access. It accesses the raw material from three renowned and proximate primary metal manufacturers - Hindalco, Nalco, and Vedanta Aluminium. The Company is one of India's large institutional aluminium metal consumers with corresponding purchase economies.

The Company manufactures and supplies extrusions for varied applications (architectural, road transport vehicles, railways, electrical and electronic applications, engineering applications, automotive sector, consumer durables, Defence applications and irrigation, among others). The power sector accounts for the largest revenue proportion. The Company

also has necessary set up to supply value added extruded products for various engineering applications.

Rich Market Presence

A network of branches and sales offices in close proximity to the customers enable us to ensure efficient, effective and timely service. The Company possesses a portfolio of over 600 reputed customers. Customer delight has been the Company's "Mantra" with a dedicated team of professionals. Utmost importance is given to client satisfaction. The Sales Team is fully qualified and trained to look after the customers' diverse requirements for their complete satisfaction. High levels of ethics and transparency are maintained in dealing with the clients to improve their confidence in the brand and the Company. Nearly 86 % of the revenues in 2009-10 were derived out of sales to long-standing customers. The real strength of the Company lies in its large number of customers in different customer segments spread in different geographical segments in a growing economy like India.

We manufacture extruded products for varied applications, viz.:

- Profiles for Architectural Applications such as Building Systems, Structural Glazing, Curtain Walls, Aluminium Rolling Shutters, Windows, Doors, Partitions, False Ceilings, Tower Bolts, Hand Rails, Door Handles, Hinges, Drapery Rods, Modular Furniture, etc.
 - Profiles for Road Transport Sections
 - Profiles for Rail Coach Windows & Doors
 - Profiles for manufacture of Automobile Components
 - Profiles for Heat Transfer in Electronics & Electrical Gadgets
 - Profiles for Electrical applications such as Tubes and Flats for Bus Bars, Transmission Line Hardware such as P.G. Clamps, H-Connectors, Repair Sleeves, Lugs, Solar Panels etc.
 - Profiles for Engineering Applications such as Motor Housings, Gear Pump Casings, Ferrules, A.C.Louvers, Machinery Parts, Elevators, Pneumatic Actuators, Pneumatic Cylinders, Valve Bodies, etc.
 - Profiles for various Defence Applications
- And many more.

On account of direct pass through of any increase / decrease in primary aluminium prices to those for aluminium extrusions, the industry is de-commoditised and relatively insulated from fluctuating primary aluminium prices. With depreciated assets, efficient inventory turns and relatively quicker receivable cycles, return-on-the-employed capital is reasonably good. The Company reported an ROCE of **19.11%** in 2009-10.

Future Outlook and New Business Opportunities

Extrusions

The Company has commenced commercial production from its new 2700 MT Aluminium Extrusion press line on August 24, 2009 and is able to produce profiles of larger dimensions and more stringent tolerances. The new expansion project put up at a capital investment of Rs.40 crores has enhanced the installed capacity for manufacture of Aluminium Extrusions from 7500 MT per annum to 15000 MT per annum. This would provide opportunities to produce and supply larger product range to our existing customers and also cater to the consumer segments where we had been unable to supply due to our capacity limitations.

There are a number of attractive opportunities for developing further value-added products of extrusions. The Company proposes to put up facilities to manufacture value-added products of extrusions such as anodizing and powder Coating facilities, door & window systems manufacturing facility, and facility for producing components/finished parts for auto, Solar panel and engineering industries in future. The Company is geared up to avail emerging opportunities in the following areas:

1. Power Sector – Our country faces continuing power shortage. More investments to plug the gap means more aluminium extrusions.
2. The vibrant Real Estate Sector in our country - More homes and offices mean more aluminium extrusions. Increasing government budgetary support for the housing sector is expected to sustain.
3. Rapidly growing Transportation Sector - More road and more vehicles mean more aluminium extrusions. The Growing Vehicular aluminium content for light weighting of vehicles to save energy will drive aluminium demand further.
4. The Sustained Agriculture Emphasis in our Country – More investments in irrigation mean more aluminium extrusions
5. Solar Energy Industry is a big emerging opportunity, which implies significant consumption opportunities for aluminium extrusions from solar panels over the years to come.
6. Indian Defence Sector: Aluminium extrusions are consumed in a wide range of applications in this sector, comprising tail-end fuse connectors for detonator shells and grenades, frame-work for tents and as a roll-over ‘mattress’ for tanks to navigate difficult terrains.

The Company’s debt-equity ratio of **0.72** indicates adequate potential for funding growth. The Company enjoys an interest cover of **4.41** and average borrowing cost of under

10% with term loans and working capital loans from banks as well as subsidised loan from the West Bengal Government.

Power T & D Hardware

Despite 18 years of power reforms, over 40% of the country’s population is still without electricity, 60 % of Indian firms and a large percentage of homes rely on captive or back-up generation. The spot rates for power have significantly increased in the last 12-18 months, led by the sharp increase in the peak and energy deficit levels. Aluminium finds growing use in this space as it is directly used in the overhead transmission and distribution lines.

Our long experience and the robust credibility in the field of manufacturing Aluminium extrusions, where we have significant presence in making supplies to customers in Power Segment, encouraged us to enter into the field of manufacturing Power Transmission and Distribution Hardware.

Power Transmission and Distribution Hardware Fittings are required for use on Overhead Transmission and Distribution Lines for connecting Insulators with Tower/Pole Cross Arms and Insulators with conductors. The Company has manufacturing facilities for casting of Aluminium Alloys, manufacturing of Extruded products in Aluminium & its Alloys, Wire Drawing, Helical Products, Fabrication of Ferrous & Non-Ferrous Components, Argon Welding, Electric Arc Welding, Machining, Bundle Spacer Assembly, Vibration Damper Assembly, Conductor Accessories, Clamp Connectors for Hardware Assembly, and manufacturing of Tools, Dies & Moulds. Aluminium is also used in insulated and underground cables laid in large populated urban areas and in reserved forests (to avoid deforestation), Round Tubes are used for corona control rings, grading rings, mid-span compression joints, dead-end clamps and jointing sleeves, among others, signifying huge opportunities for extrusions in the power sector.

During the financial year 2009-10 the Company could make only a modest sales turnover of T & D Hardware amounting to Rs. 69 lacs approx. The Company is in the process of getting registered with various State Electricity Boards and looks forward to receive substantial order from State Electricity Boards, Transmission & Distribution Line State-based Utilities, Erection Contractors, Transmission & Distribution line hardware manufacturers, etc. in the coming years.

The Company remains focused in its objective to pursue the path of profitability and sustained growth, maximize operational efficiency and strategies to attain the highest standard of quality, safety and productivity. Our attempts in optimizing the value of resources and retaining talent will continue to serve us well in our journey to the next level of growth.

Risks and Areas of Concern

Cost overrun in the Expansion project : The expansion project which was initially estimated to be put up at a project cost of Rs.34.50 crores absorbed around Rs.40 crores mainly due to depreciation of Indian Currency against US Dollar as two of our equipment forming over 50% of the project cost and sourced from Japan and USA were contracted in US Dollars. The Project Cost increase was funded from higher Term Loan borrowing and from Internal Accruals putting some pressure on the Company's resources. Further a higher project cost means need for a higher revenue to maintain the projected profitability.

Market Risk : Market dynamics are ever changing and competition is increasing as more aluminum extrusion presses are coming all over the country. New players are targeting resellers, consequently old players who were earlier in reseller markets are turning towards end users creating competition for the Company.

Competition from local manufacturers : Some of the customers prefer local suppliers for faster deliveries. To compete with local suppliers, we have to sacrifice our margin to neutralize the effect of higher Freight and Central Sales Tax.

Employee Attrition : This is a risk for any industry where growth is in double digits and the Company also faces a challenge in retaining its trained personnel. The Company has created employee friendly policies and a conducive environment for work life balance.

Trade union Activities : Our Workmen's unions operate under the control of three different political parties. It is a challenge to meet the ever increasing expectations from Unions, who at times put unreasonable demands due to inter-union rivalry in a bid to secure the support of larger number of workmen.

The Company is addressing all these concerns in a structured manner and various strategies are in place to overcome all challenges.

Managing Risk

The Company has formulated a comprehensive risk management policy with the objective of providing a framework for the organization that enables future activity to take place in a consistent and controlled manner, contributing to effective use / allocation of capital and resources within the organization. The Company has formulated systems for regular identification and measurement of risks and measures to be taken from time to time for avoidance, mitigation or reduction of risks.

Segment-wise / Product-wise performance

The Company has two business segments i.e. manufacturing

of Aluminium Extruded Products and manufacturing of Power Transmission and Distribution Line Hardware. However, the Company does not fall under any of the criteria laid down under AS-17 and hence Segment Reporting is not applicable.

Internal Control System and their adequacy

The Company has an adequate internal control system to ensure proper and efficient use of the Company's resources, their protection against any unauthorized use, accuracy in financial reporting and due compliance of the Company's policies and procedures as well as the Statutes. The internal audit is carried out by an independent firm of Chartered Accountants on regular basis, and corrective actions are taken where any shortcomings are identified.

The audit committee reviews the adequacy of the internal control system and provides its guidance for constant improvement in the system.

Human Resources and Industrial Relations

The Company continues its focus on attracting and retaining the best talent in the industry. The Company makes continuous effort to upgrade the standard of present employees by conducting various training programs.

As new business challenges emerge, there is a need to continue to be a learning organization that supports operational excellence, continuous improvement and rising standards of performance at all levels. Towards this the Company reviews the HR Policies to accentuate performance-linked rewards and professional growth.

A congenial work environment with proper infrastructure, continuous training opportunities for its employees, future growth and development opportunities and various welfare measures keep our employees continuously motivated.

The Company focuses on ensuring that all new members of the company are quickly assimilated into the organization by imbibing core organizational values. The Induction Manual of the company has been framed keeping the above in mind.

Developing a learning culture has always been and will continue to be our uppermost priority. Our efforts in the coming years will be to enable our employees to continually grow and build a competitive edge by translating the learnings into positive actions.

Your company had a long term wage agreement with its workmen which was valid till 31st October 2009. The negotiation for a new long term wage agreement is in progress. Your company had employed 363 numbers of permanent employees as on 31st March 2010.

We believe that together we can and together we will make the company achieve its corporate mission.

Corporate Social Responsibility (CSR)

The Company is committed to being a good corporate citizen and believes in shouldering responsibility towards society, community and environment. Unfortunately, the Company could not undertake any social responsibility during the year 2009-10, about which we can write in this Annual Report.

Directors

Mr. R.K.Sharma was appointed as Additional Director pursuant to the provisions of section 260 of the Companies Act, 1956 on 27.10.2009. He continues to hold office up to the date of the forthcoming Annual General Meeting of the Company. The Company has received notice under section 257 of the Act along with requisite deposit in respect of Mr. Sharma proposing his appointment as Director of the Company. Resolution seeking approval of the members for the appointment of Mr. R K Sharma as Director of the Company has been incorporated in the Notice of the forthcoming Annual General Meeting along with his brief details.

Mr. Vikram Jhunjhunwala and Mr. V K Mushran retire from directorship of the Company by rotation, and being eligible, offer themselves for re-appointment.

The Board of Directors of the Company has, at its meeting held on 20th May, 2010 proposed for increase in the remuneration of Mr. M P Jhunjhunwala, Chairman and Managing Director for the remaining tenure of his service. The terms and conditions of his appointment, including his remuneration, are subject to approval of the members. The Supplemental Agreement to be entered into with him for increase in remuneration is also subject to approval of the members.

Brief resume of the Directors proposed to be appointed/re-appointed, nature of their expertise in specific functional area and the names of the Companies in which they hold directorship and membership/chairmanship of Board Committees, as stipulated under clause 49 of the listing agreement with the Stock Exchanges, are provided as an annexure to the Notice convening the Annual General Meeting.

Credit Rating

During the year, CRISIL, the Credit Rating Agency for the Company's Banking facilities has revised its rating outlook on the Company Term Loan to 'Stable' from 'Negative', while reaffirming the rating at 'BB+'. The short-term rating has been reclassified as 'P4+' from 'P4'. The revision reflects CRISIL's expectation that CEL will maintain its moderate financial risk profile on the back of its established market position, coupled with the benefits expected from the recently

increased capacities. The ratings continue to reflect CEL's susceptibility to stretched liquidity for the increased scale of operations. The impact of these weaknesses is mitigated by CEL's diversified customer profile, which imparts stability to its revenues.

CEL will benefit from its increased capacity. A combination of benefits of increased capacity and moderate financial risk profile will help the company maintain its current credit risk profile.

Directors' Responsibility Statement

The Board of Directors of the Company confirms:

- i. that in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures;
- ii. that the selected accounting policies were applied consistently and the directors made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at March 31, 2010 and of the profit or loss of the Company for the year ended on that date;
- iii. that proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- iv. that the annual accounts have been prepared on a going concern basis.

Auditors / Auditors' Report

The auditors, M/s. A L P S & Co., Chartered Accountants, retire at the ensuing Annual General Meeting and have confirmed their eligibility and willingness to accept office, if re-appointed. There are no qualifications or adverse remarks in the Auditors' Report, which require any clarification/explanation.

Cost Auditors

As per the directive of Central Government pursuant to the provisions of Section 233B of the Companies Act, 1956, your Directors have re-appointed M/s. N Radhakrishnan & Co. a firm of Cost Accountants, to conduct the audit for the year ended 31st March, 2011.

A. CONSERVATION OF ENERGY:
a) Energy Conservation measures taken:

In Homogenizing Furnace # 1 Contactor Logic Control has been replaced by Thyristorized Control at an approx. cost of Rs.3.50 lakhs. This has resulted in energy saving of approx. 90 units per MT of logs homogenized in this furnace. Approx. 100MT of logs are homogenized in this furnace per month, resulting in saving of approx. Rs.0.40lakh per month.

Reciprocating type Air Compressors – 2 Nos. of capacity 200 CFM each have been replaced by 2 Nos. Screw type Air Compressors at an approx. cost of Rs.12.00 lakhs resulting in saving of approx. 5000 units per month i.e. Rs.0.23 lakh per month.

b) Other Principal Energy Conservation measures taken:

NIL

c) Impact of the measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production of goods:

There has been saving of approx. 14000 Units of electrical energy per month from the aforesaid measures, thus resulting in saving of approx. Rs.0.63 lakh per month.

d) Additional investments and proposals, if any, being implemented for reduction of consumption of energy:

We propose to install:

1. 4 Nos. Variable Frequency Drives to replace Star-Delta Starters at the pump house for energy saving.

Budget : Rs.5.00 lakhs

2. New Transformer for 700KW Induction Billet Heaters with customized tap settings based on the changed product-mix to achieve significant saving in energy consumption on the said Induction Billet Heater.

Budget : Rs.15.00 lakhs

M P Jhunjunwala
Chairman & Managing Director

Kailash Baheti
Chief Executive Officer &
Chief Financial Officer

To The Members,

We have audited the attached Balance Sheet of **CENTURY EXTRUSIONS LIMITED** as at 31st March, 2010 and also the Profit & Loss Account and the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standard generally accepted in India. These Standards require that we plan and perform the audit to obtain reasonable assurance whether the Financial Statements are prepared free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of financial statements. We believe that our audit provides a reasonable basis for our opinion.

1. As required by the Companies (Auditor's Report) Order 2003, issued by the Company Law Board in terms of Section 227(4A) of the Companies Act, 1956 we give in the Annexure a statement on the matters specified in paragraph 4 and 5 of the said Order, to the extent applicable to the Company.
2. Further to our comments in the Annexure referred to in paragraph 1 above, we report that:
 - 2.1. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - 2.2. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of these books.
 - 2.3. The Balance Sheet, Profit & Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of the account.
 - 2.4. In our opinion, the Balance Sheet, Profit & Loss Account and Cash Flow Statement dealt with by this report comply with the Accounting Standard referred to in Sub-section (3C) of Section 211 of the Companies Act, 1956, to the extent applicable.
 - 2.5. On the basis of written representations received from the directors, as on 31st March, 2010 and taken on record by the Board of Directors, we report that none of the director is disqualified as on 31st March, 2010 from being appointed as Director in terms of section 274(1)(g) of the Companies Act, 1956.
 - 2.6. In our opinion and to the best of our information and according to explanations given to us the said account, give the information required by the Companies Act, 1956 in the manner so required and read together with other notes given thereon, gives a true and fair view in conformity with the accounting principles generally accepted in India:
 - i) in the case of the Balance Sheet of the state of the Company's affairs as at 31st March, 2010;
 - ii) in the case of Profit & Loss Account of the Profit for the year ended on that date; and
 - iii) in the case of the Cash Flow Statement, of the cash flow for the year ended on that date.

18. Accounting Policies and Notes on Accounts

1. Accounting Policies

a. Basis of Accounting

The financial statements have been prepared to comply in all material respects with the notified accounting standard by Companies (Accounting Standards) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis except in case of assets for which provision for impairment is made and revaluation is carried out. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

b. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. Fixed Assets & Depreciation:

- Fixed Assets are valued at cost less accumulated depreciation. Depreciation is provided on Straight Line Method at rates prescribed under schedule XIV to the Companies Act, 1956.
- Free hold land, Leasehold Land and Site Development Expenses are not depreciated.
- Leasehold land wherever lease period expires is fully depreciated in the year in which the lease expires.

d. Pre-operative Expenses:

The expenses incurred for acquiring, erecting, commissioning and trial runs of fixed assets are transferred to pre-operative expenses and form a part of Capital Work-in-Progress. Pre-operative expenses directly identifiable with a particular fixed asset are charged to such asset and the balance distributed over the related fixed assets in proportion to their respective values.

e. Capital work-in-Progress:

These are stated at cost relating to items or projects in progress incurred during construction/installation /pre-operative period.

f. Investments:

Investments are classified into Current and Long Term Investment. Current Investments are stated at lower of cost and market / fair value. Long Term investments are stated at cost and permanent diminution in value, if any, is provided in the books of accounts.

g. Inventories:

- Inventories are valued at the lower of the cost and estimated net realizable value. Cost of inventories is computed on FIFO basis.
- Work-in-progress and Finished goods include related manufacturing overheads and costs. Finished goods also include the applicable excise duty.

h. Dies and Tools:

Expenditure incurred on different heads for manufacture of dies and tools are charged to profit and loss account. The expenditure on dies manufactured for expansion is shown as Dies - in - process under inventory for stores and spare parts to be charged to profit and loss account as and when the dies would be first used for production.

i. Sales:

Sales include excise duty wherever applicable.

j. Purchases:

Pending receipt of final invoices, materials purchased are accounted for on the basis of pro-forma invoice / purchase order / previous purchase rates. Subsequent adjustment is done on receipt of final invoice, wherever necessary.

k. Foreign Currency Expenditure:

i) Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.

ii) Conversion

The monetary assets and liabilities in foreign currency existing at Balance Sheet date are

accounted for at prevailing exchange rate at the year end.

Non-monetary items, which are carried in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

iii) Exchange Differences

Exchange Differences, arising on settlement / conversion of monetary items, are recognized as income or expenses in the year in which they arise except those relating to acquisition of imported fixed assets, in which case such exchange differences are capitalized.

iv) Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contracts is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

v) Derivatives

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. The Company designates these as cash flow hedges. The Company does not use derivative financial instruments for speculative purposes.

In respect of derivative contracts, premium paid, gains / losses on settlement and provision for losses for cash flow hedges are recognized in the Profit & Loss Account, except in case where they relate to borrowing costs that are attributable to the acquisition or construction of fixed assets, in which case, they are adjusted to the carrying cost of such assets.

At every period end, all outstanding derivative contracts are fair valued on a marked-to-market basis and any loss on valuation is recognized in the profit and loss account. Any gain on marked-to-market valuation of respective contracts is only recognized to the extent of the loss on foreign currency, keeping in view the principle of prudence as enunciated in AS-1, Disclosure of Accounting Policies.

1. Employee Benefit

- i) Short term employee benefits are recognized as an expense at the undiscounted amount in the profit and loss account of the year in which the related service is rendered.
- ii) Post employment and other long term employee benefits are recognized as an expense in the profit and loss account for the year in which the employee has rendered services. The expense is recognized at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post employment and other long term benefits are charged to the profit and loss account.

m Taxation:

Provision for Taxes comprises of Current Tax and Deferred Tax. Deferred Tax Assets are recognized and carried forward to be adjusted against liability on taxable income arising in future, only if there is reasonable certainty that the company would have significant taxable income to realize the benefit of such deferred tax assets. Provision for wealth tax liability, if any, is estimated in accordance with the Wealth Tax Act, 1957 and provided for.

n Borrowing Costs:

Interest and other borrowing costs directly attributable to the acquisition, construction or installation of qualifying capital assets till the date of commercial use of the assets are capitalized. Other borrowing costs are recognized as an expense in the period in which they are incurred.

o. Impairment of Assets:

The carrying amount of assets is reviewed at each balance sheet date for any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets' net selling price and its value in use. In assessing the value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

Provision for impairment is written back in case of sale / discard of impaired assets.

p. Proposed Dividend:

Dividend (including Dividend Distribution Tax) recommended by the Board of Directors is provided

for in the accounts pending Shareholders' approval.

q Capital Issue Expenses:

The entire Capital Issue expenses are written off during the year of issue.

r Hedging against metal inventory:

The Company takes hedging position against its inventory of aluminium metal and for pending import contracts of aluminium metal, which is its principal raw material. The loss/gain from such hedged contracts is charged to consumption of raw material. All open contracts as on the year end are marked to market for all losses. However, any unrealized gain on open contracts is not accounted until actually realized.

2. Contingent Liabilities not provided in respect of:

- a. Estimated amount of contracts (net of advance) remaining to be executed on Capital Account and not provided for as on 31st March 2010 is Rs 85.33 lacs (Previous year Rs 817.38 lacs).
